PROFESSIONAL SUMMARY

Software Developer with **4+ years of professional experience** engineering enterprise backend systems, ERP architectures, and automated data pipelines. Deep technical expertise in **Python**, **JavaScript (ES6+)**, **MariaDB**, and the **Frappe / ERPNext** framework. Proven track record in orchestrating multi-system integrations between TallyPrime and ERPNext, automating document intelligence with Azure AI, and developing resilient RESTful APIs for mission-critical enterprise workflows.

TECHNICAL SKILLS

Programming & Core:	Python, JavaScript (ES6+), SQL, HTML5, CSS3, JSON, XML
Frameworks & Platforms:	Frappe Framework, ERPNext Architecture, Node.js, React.js (Vite)
ETL & Integrations:	RESTful API Design, Talend Open Studio (ETL), XML Middleware, Postman
Databases & Cloud:	MariaDB, MySQL, Azure AI Document Intelligence (OCR / Form Extraction), Linux/Ubuntu

PROFESSIONAL EXPERIENCE

Software Associate — Raga Tex India Private Limited

Sept 2021 – Present | Coimbatore, India

▪ **ERPNext & Enterprise Architecture**

- Designed and customized modular enterprise workflows on **Frappe / ERPNext** using Python and JavaScript to automate procurement, sales, and manufacturing operations.
- Architected custom HR, Payroll, and reporting DocTypes with automated batch validations and file processing, **reducing administrative overhead by 40%**.
- Programmed advanced client-side scripts to control dynamic field events, multi-level form validations, and custom workspace views for enterprise operators.
- Managed MariaDB relational databases: executed schema migrations, indexing strategies, automated backups, and query optimization to ensure **99.9% system availability**.

▪ **System Integration, ETL & Data Pipelines**

- Engineered a bidirectional integration engine between **TallyPrime and ERPNext** using XML middleware and Python scripts, synchronizing thousands of financial transactions and payment entries seamlessly.
- Constructed and scheduled automated ETL jobs in **Talend Open Studio** to ingest, clean, and load multi-source operational data (RDBMS, Excel, Tally) into centralized ERP schemas.
- Developed secure, modular backend REST APIs and executed comprehensive automated test suites using **Postman** for rapid continuous deployment.

▪ **AI Document Intelligence & Web Applications**

- Implemented automated document parsing pipelines using **Azure AI Document Intelligence** (OCR & layout extraction), transforming scanned invoices into structured JSON feeds with robust fallback mechanisms.
- Built and launched a responsive, high-performance web catalog using **React.js** and **Vite**, optimizing asset delivery and catalog rendering for enterprise product showcases.

EDUCATION

B.E. — Computer Science & Engineering
Arasu Engineering College (Anna University)
Kumbakonam, Tamil Nadu • 2016 – 2020

CERTIFICATIONS & TRAINING

- **CCNA Certification Training** – Cisco Networking Academy
- **Android App Development** – NIT Trichy (Merit Award)
- **Web Development Internship** – Irarity India Pvt. Ltd.
- **Android Engineering Internship** – Infogro Technologies
